The following is the latest assignment submitted to Gannett Fleming (GF) under contract No. 68-W5-0020, Work Assignment No. 10-01 and serves to formally assign work described in my December 23, 1997 e-mail. Please review (under Task 5) the following Army COE's documents for the Amchitka Island site:

Phase 1 Site Characterization Report  
Site Screening Memorandum  
Preliminary risk Assessment Technical Memorandum  
Risk Assessment Report

Additionally, complete a revised HRS score based on information contained in the above documents. Complete an initial review under task 5 to identify any major issues or fatal flaws by January 12, 1998. A thorough review should be completed by January 26, 1998. The revised HRS evaluation should be completed by March 29, 1998.

Also, prepare final HRS score for the Vancouver Barracks site inspection report by April 30, 1998.

All preliminary scoring is considered confidential and not subject to release. According to the work assignment, preliminary scores should only be completed on sites determined by EPA. If sites include any confidential information, it should be treated as such. Please give me a call, if you have any questions.

Sincerely,
